SKOLERA AT A GLANCE

Education has developed beyond the textbook and gradebook of the past. Today, the field requires constant follow-up and implementation of the latest and best trends and methods to provide students with the knowledge they need through an experience they will enjoy and benefit from.

Skolera was designed to offer schools the tools needed to provide that experience to students, and to support educators and administrators in delivering the knowledge, material and content to the student in the most effective and efficient way possible.

Skolera is a system through which education is streamlined, simplified, and organized in a more coherent, transparent online school community.

Skolera supports practically every role in the school environment. Each user's platform is tailored to provide the tools and apps that make tasks and processes easier, quicker, and trouble-free.

Skolera is more than just a learning management system, and goes beyond being a unified learning platform.

Heads of departments are given the curriculum planning tools they need and the capabilities to monitor, supervise, and analyze teacher performance quickly and easily.

Teachers are provided with content and teaching material upload tools, easy-to-use grading systems, and Teacher's Hub, a way to stay in contact with fellow teachers and coordinators.

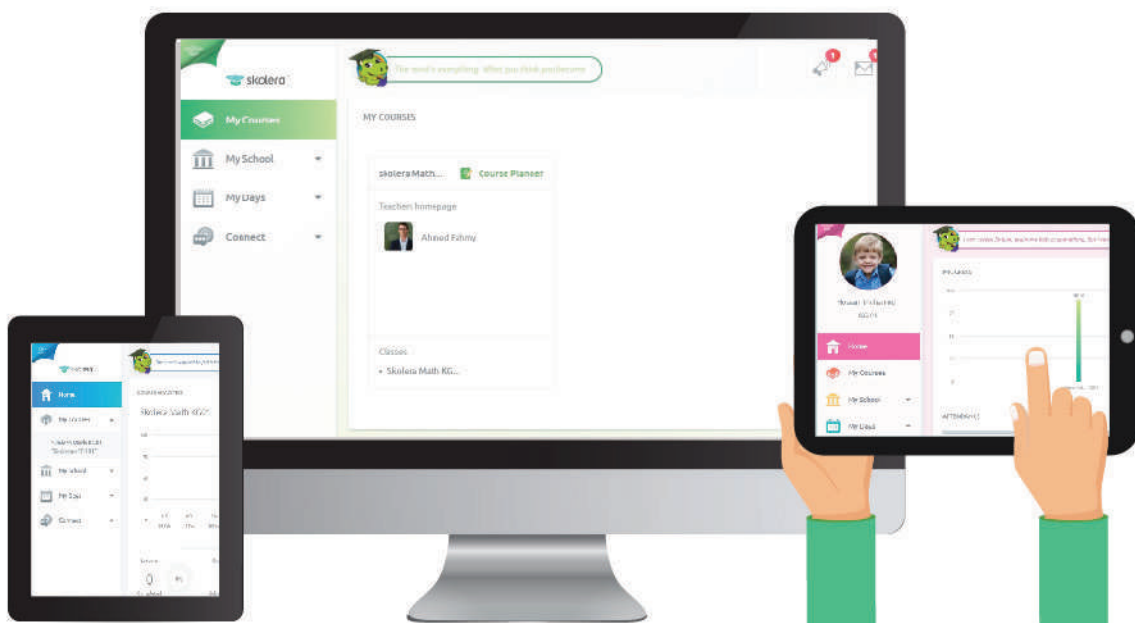

Students can now send and upload assignments from home, take graded quizzes online, and ask any of their teacher's questions they didn't have a chance to ask in class, and compete and receive motivation through Skolera's use of gamification.

Skolera allows **parents** to follow up on their children's performance, contact teachers or the school administration, and stay up to date on the latest school events and news.

The site **administrator** is provided with the tools needed to follow up on system logs and generate reports.

BENEFITS AND FEATURES

Ease of use

- Privet To-Do List.
- Quick Creation.
- Useful Quick Links.

Gamification

- Achievement Badges.
- Hall of Fame.
- Progress Indicators.

Unified learning platform

- Learning Management System.
- School Management System.
- Integrated Add-ons.

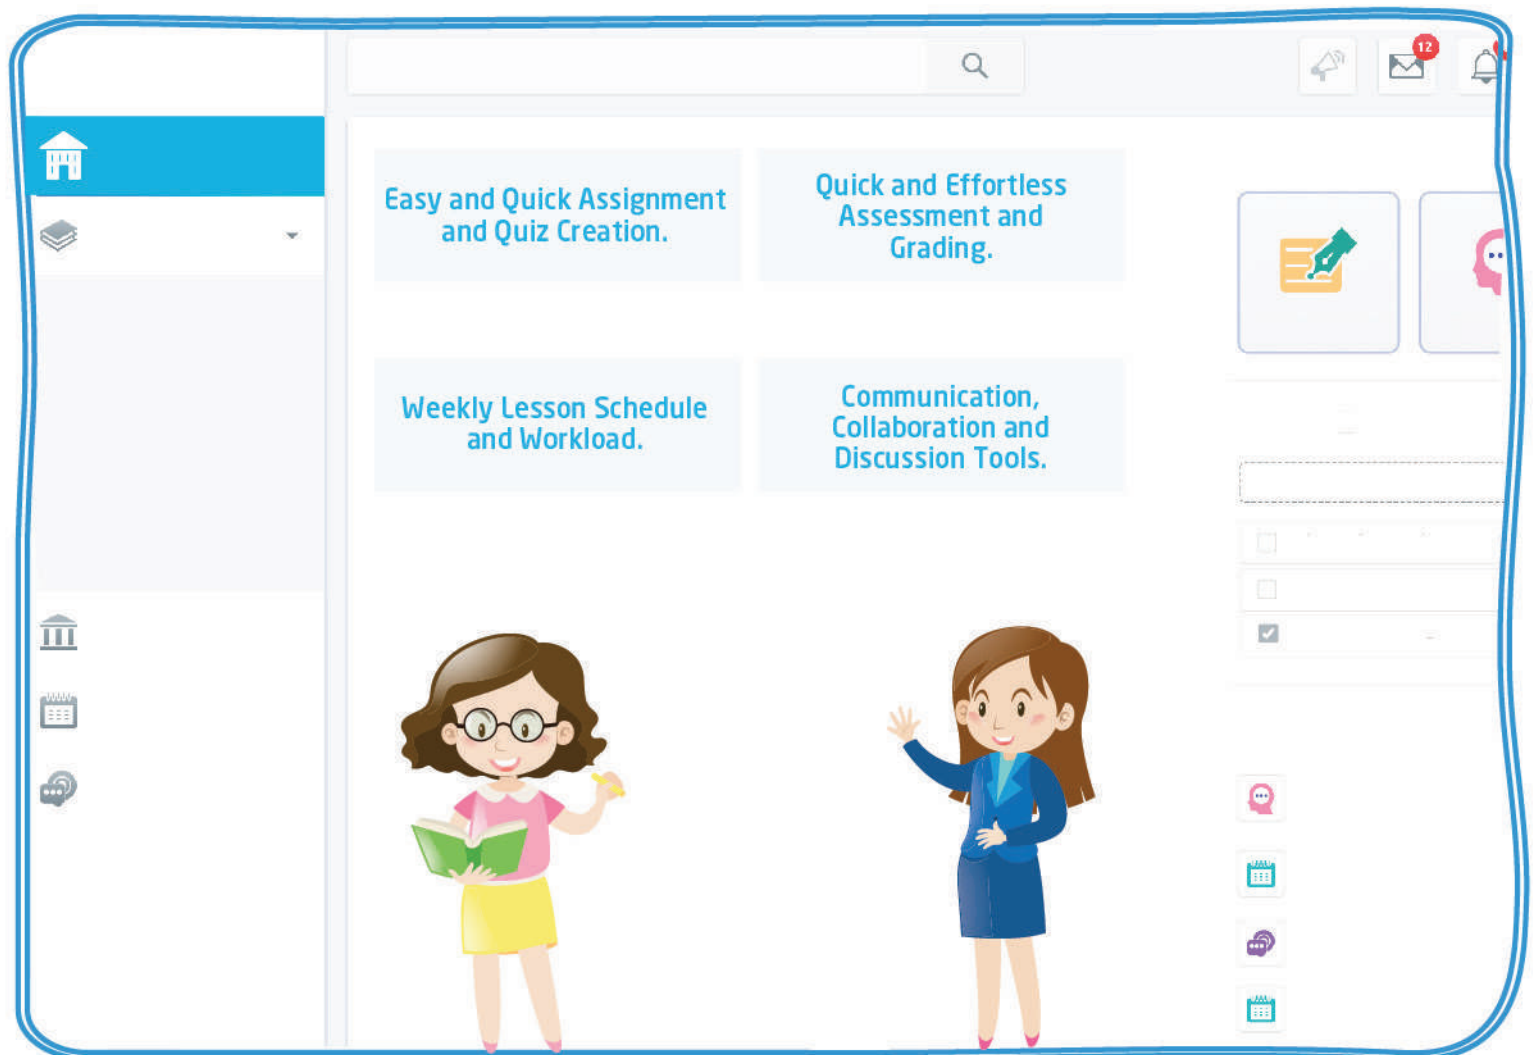

User Oriented

- Intuitive Interfaces.
- Clutter Free.
- One-step Creation.

TEACHERS

Skolera provides all the features and tools that make a teacher's tasks and work more pleasant and less stressful.

With Skolera, it is easier for teachers to know exactly where they are regarding the curriculum, how much they have covered, and how much they have left. It also makes the cumbersome task of collecting assignments and grading them much easier. Online and immediately graded quizzes take much of the work out of using quizzes for assessment.

- Quick glimpse of student performance.
- Curriculum completion progress.
- Quick links to assignment and quiz creation.
- Personal to-do list.

HOMEPAGE

- Convenient content upload tool.
- Quick and easy assignment and quiz creation, and assessment.
- Posts and announcements.
- Student behaviour notes.
- Feature-filled virtual class.
- Teacher's Hub.

MY COURSES

- Extracurricular activities.
- Common interest groups.

MY ZONES

- Convenient cloud storage to save files for later use.
- Easy Access anytime anywhere

MY SAFE

- Organize your time and tasks.
- Follow up on school events and important dates.
- Your timetable wherever and whenever you need it.
- Workload organizer.

MY DAYS

- Send and receive messages.
- Read school announcements.

HEADS OF THE DEPARTMENTS

Staying informed regarding teachers' progress and the amount of material covered is a crucial task of the heads of the departments at any school. Moreover, contacting teachers and scheduling meetings to obtain that information can be time-consuming and extremely inefficient.

Skolera simplifies the task of curriculum planning, makes teacher assessment and feedback easier, allows for better communication, and provides for enhanced cooperation and management.

- Create curriculum plans.
- Organize topics, subtopics, and lessons.
- Monitor teaching progress.
- Supervise teachers.
- Ensure content, assignments, and quizzes are relevant.
- See student performance, attendance, and behaviour notes.

MY COURSES

- Contribute to extracurricular activities.

MY SCHOOL

- Stay up to date on school-related events.
- Organize your personal events.
- Always know when your teachers have a class.

MY DAYS

- Send and receive messages.
- Read school announcements.

PARENTS

It is the dream of practically every parent to be able to follow up on his/her children's performance at school as often as possible and be able to contact and communicate with teachers and the school administration whenever they need to.

Skolera grants parents the ability to follow up on their children's performance and grades in real time as those grades and results are updated. Parents can also contact teachers and the school administration via the messaging system. My Zones also allows parents to participate in the school's extracurricular activities and clubs they feel they can contribute to.

- Stay up to date on school events.
- Receive notifications on your child(ren)'s performance.
- Get a quick glimpse of your messages.
- Access the extracurricular groups you participate in.

HOMEPAGE

- Stay up to date on your child(ren)'s performance.
- Know all the assignments and upcoming quizzes.
- Be informed of your child(ren)'s behaviour in class.
- Contact teachers anytime.
- Know your child(ren)'s schedule and grades anytime throughout the year.

MY CHILDREN

- See upcoming school events.
- Add personal events for better time management.

CALENDAR

- Contribute to extracurricular activities.

MY ZONES

- Send and receive messages.
- Receive school announcements.

ADMINISTRATORS

Site Administrators need to be able to manage users, review the system log and generate reports.

Skolera provides a platform for administrators that is user-friendly, easy to understand, and features all the options and tools needed for proper management of the platform.

- Users' statistics.
- Daily usage.
- Recent activities.
- Course activities.
- Created assignments, quizzes, and content.

HOMEPAGE

- Manage school details, sections, and units.
- Manage timetables and create announcements.

ADMINISTRATION

- Manage attendance manually or automatically.
- View and print attendance reports.

ATTENDANCE

- Lists of users based on their roles.
- Search or filter users according to various criteria, such as the school division, school level, and grade.
- Add, view, and edit courses.
- Add or edit extracurricular Zones.

FOCUSINSIGHT

- View everything that took place on the system, including student and teacher usage and performance reports.

TRACKING

- Manage the school calendar.
- Create events.
- Send and receive messages.
